Dibs is sponsored by the Regional Transportation Planning Agencies in San Joaquin, Stanislaus, and Merced counties, and our goal is to make Smart Travel easy and accessible throughout the region. We're always looking for like-minded partners in community groups, professional associations and local businesses – and in return, you'll be publicly recognized and well-informed on our journey. Finding the best option can be tricky. We're here to fix that. With Dibs, you can easily map out smarter ways to travel and be on your way in minutes.

3. Record your travel

Once your trip is completed, login to your Dibs dashboard and record your trip. You'll be able to see how your habits stack up against your friends' and automatically be entered to win prizes.

4. Enjoy great incentives

Log your trips, get rewards. It's that simple. From gas cards and bike pumps to earning points towards milestone badges, and even some big rewards!

Plan Your Trip

Our database contains up-to-date walking and biking maps as well as transit schedules. And our easy-to-use Ridematch program connects you with over 7,000 commuters to find the carpool or vanpool that works for you.

Join a Vanpool

Vanpools make getting to work quick and fun. We can connect you with existing vanpools or help you start your own. Not only will you save money on gas and car maintenance, but new vanpools can receive vouchers to make it even more affordable.

Join a Carpool

Carpools can be as flexible as needed. Share the ride every day, or once a week. It is up to you. But remember, the more you share, the more you save! Dibs can connect you with existing carpools or help you start your own today.

Get an Emergency Ride Home

Don't worry. If something happens, we offer an emergency ride home service for Smart Travelers so you'll never be stranded. We also pick up the tab. But here's the catch: you need to register for the program BEFORE you need an emergency ride home.

Get Healthy. Walk or Bike.

Walking or biking to work, school or around town is one of the healthiest and most environmentally friendly ways to start your day. Plus, you get a workout in, so you can skip the gym and spend your evening however you want.

Ride Commuter Transit

Who needs traffic? Start your morning on public trains or commuter transit and spend your time catching some extra sleep, finishing your book or binging on your favorite TV series. You'll take cars off the road and help air quality in a big way.
